Subject: RE: Question on oil and grease monitoring requirements

Hi. Thank you for your question. The permit writer for this permit retired from DEQ. I accessed PER for this permit on line at this web page <https://www.deq.state.or.us/wq/sisdata/sisdata.asp> all the way at the end of this web page under Miscellaneous Information is a link to Wastewater Permit Documents.

2007 PER is available at this link.

<http://ormswd2.synergycs.com/HPRMWebDrawer/RecordView/5303200>

I will ask around to see if someone is familiar with this permit.

Subject: Question on oil and grease monitoring requirements

Hi Beth,

Do you have the PER for the original permit for the oil water separator in Bonneville Powerhouse 1? I'm looking for an explanation/rationale on why continuous monitoring for oil and grease was required in the permit (p. 7 in attachment). If that's a conversation I should have with someone at ODEQ, I'm also happy to do that. Thanks.
